

In Sickness and in Death - researching the ill-health and death of your ancestors

Course Book List

Students often ask us for suggested additional reading for our courses. For most of our courses any additional reading is up to you. For our Intermediate and Advanced Certificate courses, students generally attain higher marks when demonstrating evidence of additional reading and there are some compulsory texts for our Advanced Certificate courses.

Here is some optional further reading for this course, in the form of books that you may want to source before your course starts. There may be additional reading material referenced in the course notes.

- Read, Sara and Evans, Jennifer *Maladies and Medicine: exploring health and healing 1540-1750* (Pen & Sword 2017)
- Wills, Simon *How our Ancestors Died: a guide for family historians* (Pen and Sword 2013)
