

Scotland 1750-1850: Beyond the Old Parish Registers

Course Book List

Students often ask us for suggested additional reading for our courses. For most of our courses any additional reading is up to you. For our Intermediate and Advanced Certificate courses, students generally attain higher marks when demonstrating evidence of additional reading and there are some compulsory texts for our Advanced Certificate courses.

Here is some optional further reading for this course, in the form of books that you may want to source before your course starts. There may be additional reading material referenced in the course notes. Note that some of these publications may no longer be in print, but can sometimes be found available from second hand book sellers online, or available to borrow from public libraries.
