

An Introduction to House History

Course Book List

Students often ask us for suggested additional reading for our courses. For most of our courses any additional reading is up to you. For our Intermediate and Advanced Certificates courses, students generally attain higher marks when demonstrating evidence of additional reading and there are some compulsory texts for our Advanced Certificate courses.

Here is some optional further reading for this course, in the form of books that you may want to source before your course starts. There may be additional reading material referenced in the course notes.

- Nick Barratt. *Tracing the History of Your House: The Building, the People, the Past*, PRO Publications, 2006
- Gill Blanchard. *Tracing Your House History*, Pen & Sword, 2013
- David Olusoga and Melanie Backe-Hansen. *A House Through Time*, Picador, 2020
- Deborah Sugg Ryan. *Ideal homes Uncovering the history and design of the interwar house*, Manchester University Press, 2020
